- ★ Calendar and compact goals measurement reporting
- ★ Summaries - Monthly, yearly, specific date range
- ★ Align parent activities to student academic goals
- ★ Measure the impact of parent engagement activities to student learning

www.ParentEngagementTracker.com

In 2010 the Parent Engagement Tracker was developed to provide schools a mechanism to track and measure parent involvement in their schools to ultimately increase student achievement. The system has proven to be very helpful to schools and districts to not only gauge parent engagement in their schools, but to also ensure parent workshops are aligned to school/district goals. Our vision is to see all schools reach their full potential in engaging and educating parents for their children to reach educational success. We invite you to learn more about our system. For a demonstration send an email to
